Swan Hill District Health to go live

We are pleased to inform you that Swan Hill District Health will be going live with the VST program on **Monday 4 August**. A mock VST clinical consultation will take place prior to the program going live.

This will result in all four health services in the Loddon Mallee region (Echuca Regional Health, Mildura Base Hospital, Bendigo Health and Swan Hill District Health) being operational with the VST Program.

If you have any questions regarding Swan Hill processes, please contact Maria Fox (VST Coordinator – Swan Hill) on 03 5033 9497 or email: MFox@shdh.org.au
